

SUITABLE FOR VOLVO TRUCKS

About Us

VSV Automotive is a leading company selling heavy vehicle spare parts abroad. It sells spare parts compatible with Volvo, Renault, DAF, Scania, Mercedes, MAN and all other heavy-duty vehicles.

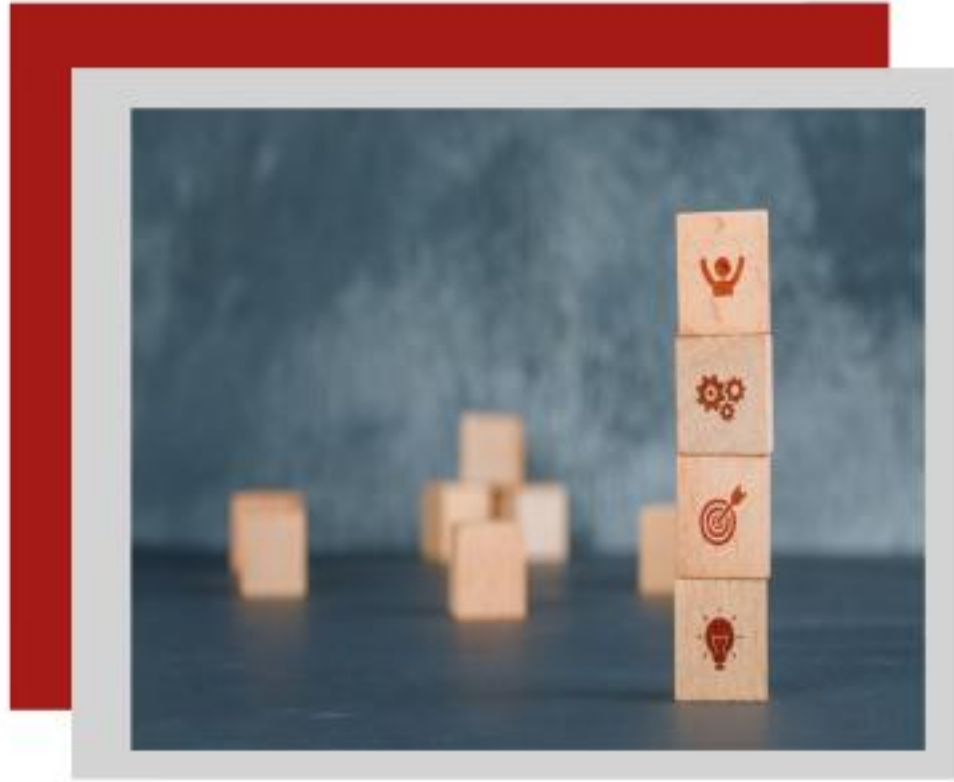

Being a global player with 40 personnel and exporting to 15 different countries, VSV Automotive provides quality spare parts service to its customers. With the experience gained over the years, the company provides fast and reliable service to its customers.

VSV Automotive is known for its high quality products and customer focused service. The company has a wide range of products to provide its customers with solutions tailored to their needs. In addition, it always tries to meet customer demands by keeping customer satisfaction in the foreground.

With its success in exports, VSV Automotive sells products to many countries around the world. In this way, it is among the most reliable and successful companies in the sector.

VSV Automotive attaches importance to customer satisfaction and considers the quality of the products during the delivery process. The company delivers products on time in accordance with the needs of its customers.

As a result, VSV Automotive is a successful company in selling heavy vehicle spare parts abroad. It stands out as one of the leading companies in the sector with its customer-oriented service, high quality products and success in exports.

Our Vision & Mission

Our Vision

VSV Automotive aims to have a leading position in the heavy vehicle spare parts industry worldwide. It aims to be recognized as a company that makes a difference in the sector with its customer-oriented approach, innovative products and high quality service. With its export activities, it aims to provide fast, reliable and quality service to its customers around the world.

Our Mission

VSV Automotive aims to provide the best solutions to its customers with its quality products and services, keeping customer satisfaction in the foreground. By following the innovations in the sector, it aims to offer the best products to its customers and increase customer satisfaction. In addition, it offers a wide range of products and fast delivery in order to best meet the needs of its customers. It aims to continuously increase customer satisfaction with its high quality products and customer-oriented service approach.

VSV Automotive always tries to implement its vision and mission to provide the best service to its customers. It aims to offer the best products and services by keeping customer satisfaction in the forefront in everything it does. In this way, it aims to respond to the needs of its customers in the best way by maintaining its leading position in the sector.

Quality Policy

VSV Automotive is a company that prioritizes customer satisfaction and providing high quality service. The aim of our quality policy is to always provide the best service to our customers and to increase customer satisfaction with our high quality products.

To this end, we adhere to the following principles:

Customer Satisfaction: We work to meet the needs of our customers in the best way and to increase their satisfaction. We constantly collect feedback to understand our customers' needs, meet their expectations, and continually improve our services.

High Quality: We provide the best service to our customers with our high quality products. In order to continuously improve the quality of our products, we perform continuous quality control in our production process.

Collaboration and Teamwork: We carry out our business with the participation of all our employees, keeping teamwork at the forefront. With cooperation, we increase our quality and customer satisfaction.

Continuous Improvement: We constantly review our business processes, products and services with the principle of continuous improvement. In this way, we constantly develop and move forward to increase customer satisfaction.

Information Security Policy

At VSV Automotive, we do our utmost to protect the security and privacy of our customers and employees. Our information security policy guides us in protecting our company's information and ensuring business continuity.

We strive to ensure and continuously improve information security in line with the following principles:

Protecting information security: All of our employees will be trained in information security and will take all necessary measures to protect the company's information. This includes practices such as enforcing information security procedures, using security software, and managing access permissions.

Protecting information confidentiality: Appropriate procedures are in place to protect the confidentiality of company information. These procedures include providing information only to those who are needed, protecting customer information, and sharing information only when necessary.

Ensuring data security: All computers and other devices in our company are protected with up-to-date security software and hardware. In addition, in case of any data loss, data is recovered with continuous backup procedures.

Ensuring business continuity: Our information security policy includes appropriate procedures to ensure business continuity. This covers topics such as disaster preparedness, data backup and business continuity.

Compliance with legal requirements: Our company fully complies with the legal requirements regarding information security.

HR Policy

VSV Automotive Human Resources Policy

Human resources are one of the most valuable assets for VSV Automotive. One of the main factors behind the success of our company is the high level of work ethic and commitment of our employees.

Our recruitment process is conducted in a fair and impartial manner. Candidates' abilities, experience and compatibility are considered. Thanks to our equal opportunity policy, discriminatory factors such as race, gender, religion, age, disability or sexual orientation are not taken into account.

At VSV Automotive, the training and development of our employees is vital to the sustainability of the company's success. We help our employees increase their skills and competencies by providing continuous training and development opportunities.

The health and safety of our employees is also very important to our company. While we comply with the laws and regulations on occupational health and safety, we also take additional measures to ensure the safety of our employees.

VSV

Automotive offers flexible working hours and other benefits to maintain the balance between work and private lives of its employees. In our company, we provide the necessary support for our employees to have a good quality of life.

As a result, the VSV Automotive Human Resources Policy is designed to help our employees be happy and successful in their jobs. In our company, we allow our employees to make a long-term career development plan and help us achieve our company's goals.
